Carrier Object

As a Computer Science student at Naogaon Polytechnic Institute and accomplish Flutter Developer. I am seeking opportunities apply my skills and contribute to cutting-edge mobile app development project. With a passion for creating innovative solution. I am eager to bring my experience to a dynamic team.

Skills

- **Programming Language:** Dart, Java, Python
- **Mobile Development:** Flutter, Android Studio
- **Database:** Friebase, RESTful API
- **Version Control:** Git
- **Tools:** Visual Studio Code, Android Studio, Postman
- **Soft Skills:** Problem-solving, Team Collaboration, Communication

Experience

- **Role:** Flutter Developer
- **Responsibilities:**
 - Assisted in the development of mobile applications using Flutter.
 - Collaborated with senior developers to design and implement new features.
 - Conducted testing and debugging of Flutter applications.
 - Participated in code reviews and contributed to improving code quality.

Projects

❖ Task Manager App (Flutter, GetX, REST API)

A task management mobile application built with **Flutter** and **GetX state management** to efficiently organize and track daily tasks. The app integrates with a **REST API** for real-time data handling.

Key Features:

- Add new tasks with details.
- Categorize tasks by status: **New, In Progress, Completed, Canceled.**
- Real-time status update and task count based on API responses.
- Delete tasks seamlessly from the list.
- Used **GetX** for reactive state management and API integration.
- Clean, user-friendly, and responsive UI for better task tracking.

❖ E-Commerce App (Flutter, GetX, REST API, SSLCommerz)

A full-featured **E-Commerce mobile application** developed with **Flutter** and **GetX**. The app integrates with a **REST API** to provide real-time product data and secure online payments using **SSLCommerz**.

Key Features:

- **Product Listing:** Display products fetched from API with category-based organization.
- **Category Management:** Browse products by categories with dedicated **Category Details Page**.
- **Product Details Page:** View complete product information with images, description, and price.
- **Add to Cart with Authentication:** User must **log in** before adding items to cart.
- **User Authentication:** Secure login system for personalized experience.
- **Payment Integration:** Implemented **SSLCommerz** for safe and reliable payment processing.
- Used **GetX** for state management and API integration ensuring smooth performance.
- Modern, clean, and responsive UI for a seamless shopping experience.

Education

- **Diploma Engineering in Computer Science (2022-Running)**
Naogaon Polytechnic Institute

Extra-Curricular Activities

Advance Learning for App development & Earning Development Project -Bangladesh

Language Skills

- Bangla: Native proficiency
- English: Professional working proficiency
