PROFESSIONAL SUMMARY

Detail-oriented Flutter Developer with a passion for building high-quality, scalable mobile applications. Expert in crafting responsive user interfaces and implementing robust architectural patterns to ensure code maintainability and long-term project success. Strong background in full-lifecycle mobile development, from integrating complex backend services to optimizing application performance for a seamless user experience. A collaborative team player committed to continuous learning and staying at the forefront of mobile technology trends.

TECHNICAL SKILLS

- **Languages:** Dart, Java, Python
 - **Frameworks:** Flutter
 - **Architecture:** Clean Architecture, MVVM, MVC
 - **State Management:** GetX
 - **Backend & APIs:** RESTful API Integration, Firebase Services (Auth, Firestore, FCM)
 - **Local Database:** Hive, SharedPreferences
 - **Tools:** Git, GitHub, Postman, Android Studio, VS Code
 - **Core Expertise:** UI/UX Implementation, Debugging, Performance Optimization, OOP
-

TECHNICAL PROJECTS

E-Commerce Platform | [Project Link](#)

- Developed a feature-rich e-commerce application focusing on scalable architecture and secure payment integration.
- Engineered dynamic product management modules and optimized state handling for real-time user interactions.
- Implemented secure payment gateway integration (SSLCommerz) and user authentication to ensure data integrity.
- Focused on high-fidelity UI rendering and cross-platform responsiveness for an enhanced user experience.

Task Management System | [Project Link](#)

- Built a comprehensive productivity tool with real-time data synchronization via RESTful API services.
 - Designed an intuitive task lifecycle tracking system (New, In Progress, Completed, Canceled) to enhance user productivity.
 - Streamlined application performance through efficient API handling and dynamic UI state updates.
-

PROFESSIONAL DEVELOPMENT & EXPERIENCE

App Development Trainee | Ostad Platform

Remote | 28-09-24– 13-08-25

- Engaged in an intensive, project-driven training program focused on industry-standard mobile development workflows.
- Mastered the application of Clean Architecture and SOLID principles in building production-ready applications.
- Refined technical problem-solving skills through collaborative development environments and code reviews.

Junior Developer (Academic Projects) | Naogaon Polytechnic Institute
Naogaon, Bangladesh | 2022 – Present

- Developed and tested multiple mobile utilities, prioritizing clean code and modular design.
 - Integrated various cloud services and third-party libraries to extend application functionality.
-

EDUCATION

Diploma in Computer Science & Technology
Naogaon Polytechnic Institute | 2022 – Present

SOFT SKILLS

- Analytical Problem Solving: Proven ability to debug complex issues and implement effective technical solutions.
- Team Collaboration: Experienced in working within structured environments to achieve project milestones.
- Technical Communication: Skilled at translating requirements into functional technical specifications.
